

Hello Aspiring Athletes friends and family,

I am proud to announce that we, Aspiring Athletes, are keeping our tradition alive by finding our players schools to attend and baseball programs to play for. Being that this year we experienced a higher volume of seniors to than ever before, I felt that the task at hand was more difficult than originally planned for. But with the great leadership from our staff, great team chemistry, and our extensive knowledge on how to reach goals; we have successfully completed what we set out to do.

On the next page, you will find a partial list of our 2010 Senior Class who have already verbally committed to playing baseball in college. I cannot wait to follow these guys throughout their collegiate careers and hopefully the road beyond. I know how tough it is to make it, and if our players haven't learned anything else; at least they understand how to battle through adversity in order to accomplish their dreams. Congrats to all of our 2010 graduates and a special congrats goes out to the families who have supported these players to get to this point.

*** For all 2011 players, please call into the office today and schedule your summer interview with me. I would like to start talking to colleges for you come June 1st, but I need your help in order to understand your future plans.

Best Regard,

Dominique Rodgers

College Placement Director/ Head Coach of The Akron Braves
